

How to get access to your free SmartMusic account

Make Music is the company that owns the SmartMusic platform and they have offered all school districts experiencing a closure free access to a premium account for their students through June 30th. You can access the SmartMusic platform via iPad, laptop, or Chromebook. If you don't have access to this technology, CVUSD has a protocol in place to check out a Chromebook while we are away from school. Go to this link to register to check one out:

As part of the distance learning protocol, all of the band classes will be utilizing some Smart Music assignments for students to submit their work. In order to submit your work, you will need to create a SmartMusic account and join the classes that you are registered for. Details of how to do this can be found via the links below.

Please be aware that you should NOT use your Learn email when you register with SmartMusic. Your Learn accounts do not allow you to receive emails from outside the Learn domain, so you may miss important notifications from SmartMusic when a new assignment goes up and you will also not receive the confirmation email that comes when you initially create your account.

Here are the class codes you will need to register for each class:

Concert Band JU6Z2-PA23U

Jazz I N6ZNL-N4WRL

Jazz II ZPN2Z-PD6ZR
